"I'm listening to your album and it's absolutely fantastic! You play it so beautifully and with such refinement, so serenely, and every note is given the chance to soar, as it were – it's truly very moving. It makes me feel so calm, and yet, strangely enough, it also gives me energy. You've really performed these pieces in an unrivalled way, and a big compliment to Frerik too – the sound is superb; what a recording: everything is just spot on.

Huge congratulations to you both and to us. I'm absolutely delighted with this!"

Danielle delivered more than that, providing a peaceful setting that started with a sound bath, followed by a concert with a baby harp, topped by playing her regular harp. "I want to introduce you to an amazing, talented, and inspiring woman, Danielle Riegel! She is a multidisciplinary artist with incredible energy. One of her talents is playing the harp! I had the pleasure to experience the celestial sounds vibrating from her harp various times (in various different settings). I'm in awe as they still resonate through me.

She started playing professionally at a very young age in the classical music industry but has shifted her focus now on conscious events, gatherings, and festivals.

Besides playing the harp, she is a Qi Gong teacher, Tango teacher, Sound Healer, and Holistic Nature Coach (just to name a few!). Her inexhaustible drive has made sure she is always learning from the best. She creates such incredible spaces that feel safe and sooo nourishing!

"Danielle is a very unique musician, who expands your heart with her music and delivers calmness, peace and love.

Danielle gave an enchanting private harp concert and sound journey, which was very well received, thanks to the uniqueness and professionalism of the truly kind-spirited Danielle.

The communication with Danielle to arrange the concert was easy and flowing. She played for us on two different harps, and has delivered beautiful meditative and healing songs, that have deeply relaxed our bodies, replenished our cells, and nourished our Souls.

I wholeheartedly recommend this unique experience to nourish Yourself and your Loved Ones."
